About

The Napa Valley Vine Trail is a proposed 47-mile walking and biking path connecting the Vallejo Ferry Terminal to Calistoga CA. To date, over 20 miles of VINE TRAIL have been completed with segments in Vallejo, American Canyon, Napa, Yountville, Calistoga, and Napa County. The longest completed section is 12.5 miles from Kennedy Park in south Napa to Yountville.

The mission of the Vine Trail Coalition is to provide a paved trail through the “spine” of Napa Valley and separated from Highway 29. Along the way there are rest stops, art and educational placards, making the trail an outdoor experience unlike any other in the valley. Trail access for cyclists, bike commuters, runners and walkers allow us to connect our communities providing a safe and healthy opportunity for transportation and recreation for residents and tourists alike.

LOCO-MOTION is the Napa Valley Vine Trail Coalition’s premiere experiential fundraising event. We have committed to raise \$7.1 million in private philanthropy to match \$19 million in federal, state and local competitive grants to construct the trail. We’re also raising \$700,000 to maintain the trail for generations to enjoy.

Be part of this one-of-a-kind opportunity for a one-of-a-kind trail that benefits the health, safety, climate and community of Napa Valley and its many visitors too. 20 miles complete, 15 miles to build in 2023, 12 miles to go!
